

2nd International Conference on the Theory of Information Retrieval

September 10-12, 2009

Microsoft Research, Cambridge, UK

Call for papers:

The International Conference on the Theory of Information Retrieval (ICTIR) aims to provide a forum for discussion and interaction among those with theoretical and applicative research interests in mathematical/formal aspects of Information Retrieval (IR), including, e.g., foundational issues, description or integration of models, retrieval applications, mathematical/formal techniques, existing and/or new theories and theoretical aspects. In addition to the established fields and approaches in IR, we welcome new approaches inspired from mathematics, physics, linguistics, biology, philosophy, sociology and other areas. Papers that demonstrate a high level of research adventure or which break out of the traditional IR paradigms are particularly welcome.

Important dates and further information:

Research paper submission deadline is April 17, 2009. Posters are due by May 1, 2009.

For detailed information, please refer to the conference website at:

<http://kmi.open.ac.uk/events/ictir09/>

Honorary chair:

Keith van Rijsbergen
(University of Glasgow)

General chairs:

Gabriella Kazai (Microsoft Research)
Stefan Rüger (The Open University)

PC chairs:

Leif Azzopardi (University of Glasgow)
Dawei Song (The Robert Gordon University)
